SATURDAY NIGHTS FIRE

surunce Men Look Over the Rains

Insurance men were on the scane of Saturday night's fire early yesterday morning looking over the trooted stock and building. From appearances the fire started in a room on the top floor in the very center of the building, where it was impossible to reach it until the partition burned away or the flames ate their way through the roof. During the evening several people had worked in the room preparing racks and cases for a new stock of fall and winter goods. It is supposed that a right atub or a spark is supposed that a right stub or a spack from a cight dropped in the litter on the floor and started the blaze. The workmen had not been away from the room more than a half hour when the fire was income.

Mr. Goebel's stock is almost a total loss, as the water deinged almost the entire building, and his large stock of fine wall papers, frames and art goods was destroyed by the water or made practically valueless. Mr. Goebel carried \$16,500 insurance, which will hardly cover his loss. He was told by the insurance men to move his entire stock or so much as is worth saving to the vacant store in the Howiett building, two doors south, and save as much of it as possisouth, and save as much of it as possi-ble. The cost of moving will be figured in as a part of his loss. The roof of the block was entirely destroyed and the walls were damaged by water. The front wall is bulged out over Canal street in a dangerous condition, and may have

front wall is buiged out over Canal street in a dangerous condition and may have to be taken down. J. M. Dudley, agent for the property, thinks his insurance will cover the loss.

The damage to the Boston novelty store's stock will be much less than was estimated yesterday morning. It was found that the entire damage was contined to the ground floor and was due to a mistake made by the firemen who ined to the ground floor and was due to a mistake made by the tiremen who worked in the alley in the rear of the building. It appears that the men mis-took the building in which the fire was located and broke in the windows of the novelty store and flooded it. A solid wall divides the two stores and but for

this mistake no damage would have been done to the novelty stock.

E. D. Fuller's printing office, in which The Review is published, suffered considerable loss from water also.

The Best Plaster.

Dampen a piece of flannel with Cham-berlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by F. J. Wurzburg, 58 Monroe street; also Peck Bros., 129-131
